PLAINTIFF WARE **CROSS-EXAMINED**

Questioned by American Tobacco Company Attorney as to Inside Transactions.

TWO VIRGINIANS ARRESTED

Holderfield, in Penitentiary as Accomplice for Murder of Richmond Man, Pardoned.

(Special to The Times-Dispatch.) Raleigh, N. C., June 28.—President F. D. Ware, of the Ware-Kramer Company, is still in the hands of Attorney Junius Parker, of the American Tobacco Company, being cross-examined on the business methods and inside transac-tions of the Ware-Kramer Company. The effort of the cross-examination is to force the witness to admit that his company practiced almost from the very first sales transactions of the Ware-Kramer Company the special inside discounts, free goods and other trade concessions that it now asks the court for \$1,250,000 damages against the American Tobacco Company for using against the plaintiff's business. Attorney Parker is using the Ware-Kramer letter books unit questioning Ware as to letters exchanged by him and salesmen and jobbers.

Mr. Ware is proving to be decidedly

samen and jobbers.

Ir. Ware is proving to be decidedly best poised witness the plaintiffs beyond the provinced. Practically now features were developed to-day.

Obio is Threatened.

New York, June 2s.—Fire in the af-ter turret of the battleship Ohio at the navy yard in Brooklyn late to-night necessitated the flooding of the powder magazine below as a precau-tion against an explosion. The fire smouldered for half an hour along the heavy rubber insulation of elec-tric wires and a quantity of cotton waste.

waste.

The blaze is believed to have originated by the dropping of a hot rivet on the insulation of the wires which operate the electric ammunition hoist, when workmen were installing a so-called bulkhead or steel partition between the two big guns of the turret. The powder magazine is said to have been situated seven feet below the turret and contained about 3,000 pounds of powder in cans and a considerable quantity of other ammunition.

LETTER GETS HIM IN JAIL

Writes to Wealthy Shoe Man Demanding \$27,470.

Philadelphia, Pa. June 28.—Charged with sending a letter to P. T. Hallahan, a wealthy shee dealer here, demanding \$27,470, and threatening to shoot him if this demand was not compiled with, Edward J. Burns, aged thirty-three years, was arrested by postal inspectors to-day and held in \$3,000 bail for court.

Burns arrived here from the West about two weeks ago, and the inspectors say that when they took him into custody at his hotel he had two loaded revolvers in his pockets. He claimed to be a distant relative of Mr. Hallahan, and said that he had been defrauded out of the proceeds of an estate.

in whose interests our governments were conceived.

There has in recent months been a great conceived.

There has in recent months been a great reterms of the field in politics, and nowhere has this theen more apparent than in New Jersey. Great measures of reform, upon which opinion was quite made up long before the last session of the Legislature, have now been put upon the stature book. The strain and debate for their formulation and passage are over, and we look about us to see what the purpose of them was, and, to some extent, what the result has been Public opinion has at last found its voice in a free Legislature, and there is a feeling on the strain that the people have again taken

The several candidates for the senatorial toga of the late Senator Clay were busy to-day preparing for the contest and totaled when the Legislature begins ballotting for Senator on July 11. Railroad Commissioner Murphy Candler to-day announced that he wull be a candidate only in the event Hoke Smith écoines to allow his name to be used. Some of Mr. Smith's friends are venturing the prediction that he will be nominated on the first ballot.

The situation looks rosy enough to me, was the confident comment of Senator Ferrell. Both Pleasant A. Stovall and Judge W. Covington appeared equally optimistic.

national yacht race to-day, and so captured Emperor William's cup offered for the winner of the series of sonder class competitions.

The American yacht Beaver was second. The time of the Bibelot was 2 hours 18 minutes 1 second, and of the Beaver, 2 hours 18 minutes 8 seconds.

The winner of the cup is owned by Harry Payne Whitney, of the New York Yacht Club, and R. W. Emmons, of the Eastern Yacht Club. She won three of the five races, the Beaver and the American yacht Clma each taking one.

FOOD VS. FAMILIES.

Offspring May Be Few or Many According to What You Eest.

Los Angeles, Cal., June 28.—That the mysterious and freakish thyroid gland, in combination with the effects of various diets, may exert a direct influence for large or small families was one of the interesting infrences drawn from a scintific narrative of experiments conducted with mice, placed today before the American Medical Association by Reid Hunt, of Washington, D. C.

In his experiments with thyroid gland, Dr. Hunt had observed relaxable effects. He fed three groups of four mice of four months, and found that fecundity or sterillty depended on the activity or idleness of the gland, one group of mice was fed on oatmeal and lived. This stimulated the activity of the pland, and at the end of the four months there were 1.) little mice, On the other hand, the second group, which had crackers, milk and eggs, increased to 101 in the same period. Cornment and milk greatly reduced the birth rate in a third group of four mice. Fed on this diet they had sixtynine young in four months. Whether like experiments would produce similar results among all animals, including man, Dr. Hunt did not say.

Mexico City, June 28.—No move calculated to antagonize foreign capital will be taken by the counsel of the more conservative men close to the more conservative men close to the Madero regime prevails.

"I wish to say to the foreign world," said President et a Barra to long as I am at the head of the government it will be friendly towards foreign question of the government will welcome it as did the former."

The President's remarks followed a negative answer relative to the reporter dissolution of the Pulqe Trust by the government Madero, the Minimals and point that by the end of another work ever 1.) little mice, on the other hand, the second group, which had crackers, milk and eggs, increased to 101 in the same period.

Cornment and milk greatly reduced the birth rate in a third group of four mice. Fed on this diet they had sixtynice with the provide the providence

AEROPLANE DELIVERY

Package of Merchandise Dropped on Board Liber Olympic.

New York, June 28.—The first piece of merchandise ever delivered at sea by aeroplane fell on the upper deck of the giant White Star liner Olympic to-day as she steamed through the Narrows outward bound on her maiden Eastward passage. W. Attee Burnee, of Philadelphia, had contracted for delivery of the package before sailing, with a department store, which in hum engaged Thomas Sopwith, the Enclish aviator who recently took up Henry W. Taft, the President's brother, for a sky ride. With Richard R. Sinslair, secretary of the Aero Club, holding the package, Sopwith rose from the aviation grounds at Garden City and timed his flight to meet the liner in the Narrows, While Sopwith controlled the aeroplane Sinclair dropped the package at the given signal. No word enme from on beard of whether it had landed or not but to those on nearby craft and to the aviators 't seemed certain that it had fallen true. AUTO UPSET ON A CURVE.
